Re: **RieberLock** – PVC Pipe Restraint System

Mr. Matt Minamyer:

El Paso Water Standards Review committee has convened and evaluated RieberLok PVC Pipe and Fitting Joint Restraint System submitted products for consideration.
This table renders the committee's ruling:

PRODUCT	MODEL	Committee Resolution	Comments
RieberLok			
PVC Pipe and Fitting Joint Restraint	Gasket for Internal Restraint of AWWA C900	Approved	Must remain AWWA approved

Thus, El Paso Water Standards Review Committee has found constructive use of your submitted products thus in favor as stated above. Conditional such products maintain production specifications as submitted to this date, any modifications or changes are subject to re-submittal and committee re-evaluation for approval.

Thank you for your support and your staff provided redesign and casting required for this approval. Thank You for your interest in El Paso Water.

Sincerely,

Gonzalo Cedillos
